Download Instructions for Labels & Flyers

These labels can help increase your Avon online sales and mentioned in the Online Beauty Bosses How-To: "**5 EASY STEPS TO GET STARTED WITH ONLINE SALES FOR AVON REPS**".

To Download and customize just follow these instructions:

Customizing

1) To customize with your personal info you'll need to download and save to either your computer or tablet. The form can't be customized online. Not sure if customizing can be done on mobile phone. There might be an App to view .pdf files but you'll need to experiment with that.

2) Once you download to your computer just open the file and start customizing. To start over you can click the "Reset" button and it will clear the form.

Printing

The Order & Contact Forms as well as the Daily Care Flyer can be printed on regular paper. The Brochure Labels can also be printed on regular paper if you'd like a budget friendlier way to use. Just print, cut out and use a glue stick to attach.

The WELCOME10 Stickers and Brochure Labels were created on Avery Label templates and should be printed on the specific sized labels shown below.

To help save on ink you can load your customized labels on a Flash Drive and take to Staples or other printing store. At Staples you can bring your own paper for them to use so you can save money.

Round Welcome10 Coupon Stickers

These are 2 ½ Diameter labels created for Avery 5294 or compatible labels

Purchase Labels at Amazon (click to view)

Brochure Labels with WELCOME10 Promo Code

These 2 x 4" address labels are compatible with Avery 5163 or 8463 but the Maco labels found over at Amazon are reasonably priced
